Dear Commissioner Henney:

We are writing in support of a petition filed by CSPI banning the use of medically useful antibiotics in animal feed.

As you know, adding antibiotics to promote growth can make bacteria resistant to antibiotics. This can lead to the inability of current medications to fight bacterial infections in humans.

With so many viruses and bacteria in our world today, I would not want to see any medical treatment options become ineffective.

We are writing, not only on behalf of ourselves, but also our five children and our unborn grandchildren.

Sincerely,

Debbie and Paul O'Sullivan
